प्राक्तनं ज्ञानतन्त्रं च आधुनिकं वा-क्रमं तथा।

यत् संनहति लोकेऽस्मिन् तद् 'वा' इति प्रोच्यते बुधैः॥

🔍 The Breakdown:

प्राक्तनं ज्ञानतन्त्रं च (Prāktanam jñāna-tantram ca): The ancient systems of knowledge (Veda/Tantra).

आधुनिकं वा-क्रमं तथा (Ādhunikaṃ vā-kramam tathā): And the modern digital workflow/processes.

यत् संनहति लोकेऽस्मिन् (Yat saṃnahyati loke'smin): That which unites/binds them together in this world.

तद् 'वा' इति प्रोच्यते बुधैः (Tad 'vā' iti procyate budhaiḥ): That is called 'Vā' by the wise (the Linguistic Rishis).

Etymology:

"The Vā- (वा-) prefix is derived from the root of Vāyu (Movement/Flow) and Vāṇī (Speech/Signal). In the modern age, everything is a flow of electrons and data signals. Therefore, Vā- is the most scientifically and linguistically accurate marker for 'Mediation' through technology."
